

# Discovery Program

4<sup>th</sup> and 5<sup>th</sup> Grades

2012-2013

In the fourth and fifth grades, we will use a combination of instructional models to best serve our gifted students. Mrs. Manzi will be the gifted liaison for the Discovery program in fourth and fifth grades. In the fourth grade, she will be pulling out our Discovery students during social studies every day. In addition, Ms. Lockwood and Ms. Benzur will be using the cluster model in math and language arts. In fifth grade, Ms. Manasso will be serving our gifted students using a combination of the cluster model and self-contained model in language arts and math. These models allow us to maximize our resources and insure we challenge and accelerate our gifted students.
